April 17, 2010 Parker County Master Gardener annual Spring Plant Sale 8:00 AM

The Parker County Master Gardeners plant sales are held in the spring and fall. The events are held rain or shine in the parking lot/lawn of the Texas AgriLife Extension Service office at 604 N. Main Street in Weatherford, Texas.

There are tremendous selections of perennials, herbs, vegetable plants, annuals, shrubs, and roses available to help you get your gardening off to a great start. Many of the plant varieties are native or adaptive to Parker County. Master Gardeners will be on hand throughout the event to provide information about the plants, answer questions and assist with plant selection to meet your gardening needs. Each year the quantity of plants offered is increased to meet the growing demand. Master Gardeners will also have demonstration booths set up featuring the latest information on drip irrigation and rainwater harvesting. The proceeds from this annual sale go toward providing horticultural education to the citizens of Parker County and promoting sound horticultural practices in everyday gardening.

May 8 - National Vietnam War Museum Gardens Drip Irrigation Seminar 9:00 A M
